Investment Thesis:

Trade only the most active stocks on the New York Stock Exchange and NASDAQ between 9:00 am EST - 11:00 am and 15:00 EST - 16:00 EST. The Fund only trades momentum and will trade both short and long. The Fund will start everyday holding 100% USD cash and end the trading day also 100% in USD cash. The price of the Fund will be updated everyday at 17:00 EST and show the 100% USD cash balance. The Fund might make 30 trades in a day or no trades at all, depending on the market volatility. Typical stocks to trade are APPLE, MICROSOFT, TESLA, GOOGLE, AMD and other volume leaders on the US stock exchanges. Some Fund hard & fast rules include:

- 1. Always hold a 100% USD cash position overnight.**
- 2. Trade only after news releases. Never guess on earnings or news releases. Only trade stocks after earnings or news and only during regular market cash sessions.**
- 3. Only trade a stock when volume is above average. We are trading long or short with momentum.**
- 4. Stop loss orders are required for every trade. We set tight stop loss orders and look for re-entry to a trade.**
- 5. We are looking for trades with a 2 to 1 benefit to loss potential.**
- 6. We expect our trades to be 50% correct and 50% wrong. But the benefit to loss ratio of 2 to 1 delivers the daily profit.**

Fund Manager:

The Fund is managed by Eric Withers. Currently a Registered Investment Advisor in Miami, USA. Eric was first licensed with the SEC and FINRA in 1996 and has over 30 years experience actively trading US stocks.

Client Suitability

Prior to the admission of participation, the participant shall complete some form of client suitability assessment.

Prior to the admission of participation, the participant shall complete a KYC process, sign a W-8 form and agree to all terms and conditions for admission to the Fund and all its series.

To the extent the offer and sale of the Securities pursuant to this Agreement is intended to be exempt from registration pursuant to Regulation S and/or Regulation D, each Participant severally and not jointly represents, warrants and agrees that such Participant:

- is not a U.S. Person, as such term is defined in Regulation S;
- is outside the United States at the time any order pursuant to this Agreement is originated and this Agreement is executed and delivered;
- if, for any reason, the participant is a US citizen and/or resident of the US, they must qualify as an accredited investor;
- will not, during the period commencing on the date of admission to the Fund and any or its individual series and ending on the six (6) months anniversary of such date, or such shorter period as may be permitted by Regulation S or other applicable securities law ("Compliance Period"), offer, sell, pledge or otherwise transfer the Securities in the United States, or to a U.S. Person, or to any other person outside the Fund and its specific series and without doubt will not attempt to transfer that might benefit a U.S. Person, or otherwise in a manner that is not in compliance with Regulation S.

Risk Factors:

The value of the investment is based on the Net Asset Value per unit (NAVpu) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily or in some cases may not change for long periods of time. Investment in a private pooled asset series Fund holding stocks and cash securities does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpu at the time of redemption is lower than the NAVpu at the time of admission.

The Fund which shall be substantively invested in stocks during the trading session and is exposed to the following risks;

- **Market Risk:** The value of the Company shares and the Fund's investment in them can fluctuate based on market conditions, industry trends, and other factors beyond the Fund's control.
- **Regulatory Risk:** The regulatory landscape for the industry in which the Company operates is evolving and may impact the Company operations and the value of its shares.

- Liquidity Risk: The Fund's ability to buy or sell the Company's shares may be limited, which could affect the Fund's ability to respond to market conditions or investor redemption requests.
- Investors are encouraged to review the risk factors outlined in the Fund Declaration and consult with their financial advisors before making any investment decisions.
- Market/Price Risk. This is the possibility for a participant to experience losses due to changes in market prices of securities (e.g., bonds, equities and other assets). It is the exposure to the uncertain market value of a portfolio due to price fluctuations. The value of assets and liabilities can fluctuate over a given time period because of general market conditions, economic changes or other events that impact large portions of the market such as political events, natural calamities, etc.
- Offsetting/Hedging Risk. This is the possibility for a participant to experience losses brought about by the inherent risks which the underlying investment is exposed to despite the use of a hedging instrument. Hedging is the act of reducing the exposure of the underlying investment from its risks. There is no guarantee that the effectiveness of a hedging instrument shall remain throughout the term of the underlying investment. Should the hedging instrument become ineffective, liquidating based on market prices may result in market losses.
- Other Risks. Additional risks are described in the Risk Disclosure document which is an integral part of participation in the Fund.
- There is the possibility for a participant to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion trading in securities with small or few outstanding issues, absence of buyers, limited buy/sell activity or an underdeveloped capital market. Securities in various investment vehicles, segregated portfolios and private Funds may be illiquid which may prevent the redemption of investments until they are converted to cash.

Other Information

The Fund enters into contractual arrangements with various parties, including, among others, the Fund's investment advisers, administrators and distributors who provide services to the Fund. Participants of the Fund are not parties to, or intended (or "third-party") beneficiaries of, any of those contractual arrangements, and those contractual arrangements are not intended to create in any individual participant or group of participants any right to enforce such contractual arrangements against the service providers or to seek any remedy under such contractual arrangements against the service providers, either directly or on behalf of the Fund.

The fund, the Adviser, any distributors, and/or their affiliates may pay intermediaries, which may include banks, broker-dealers, retirement plan sponsors, administrators, or service-providers (who may be affiliated with the Adviser or Distributor), for the sale of fund shares and related services. These payments may create a conflict of interest by influencing your intermediary and your investment professional to recommend the fund over another investment. Ask your investment professional or visit your intermediary's web site for more information.
