2040WORLD is a game universe based on a real economic model. At the heart of our gaming universe are mechanics and laws that allow players to gain new experience and pleasure from the game, as well as earn money by developing in the game world. 2040WORLD models the game loops that make digital goods valuable. In 2040WORLD, there is a huge range of activities, from mining, construction, trading and business to buying and selling land - all professions in the game are in demand, just like in the real world. Players will also have the opportunity to compete with each other, participate in PVP battles, etc. **In 2022, more than \$7 billion was invested in the blockchain games industry. By 2030, the blockchain games market is expected to exceed \$70 billion per year.**
