

DUBAI CAR RENTAL FUND

About the Business and the Fund

AUTO FUND

- ✓ Auto Fund offers investors exposure to an effective business model in the car rental industry in Dubai, specialising in the acquisition of damaged cars at auctions.
- ✓ Model selection is made based on the cost of repairs, nature of damage and potential rental cost.

Car purchasing process

Selection of cars at auction.

The initial stage of the business process consists of a careful selection of cars to be purchased at auctions.

Economic efficiency.

Purchasing cars with minor damage at auctions allows you to purchase vehicles 20-30% cheaper than market value

Car restoration and preparation

After purchase, the vehicles are sent for repairs at the service centres of our reliable contractors.

Through the negotiation of repair contracts, we significantly reduce the cost of repair work.

Our cars undergo rigorous quality checks before being rented to ensure safety and reliability on the road.

Selection of cars for rental

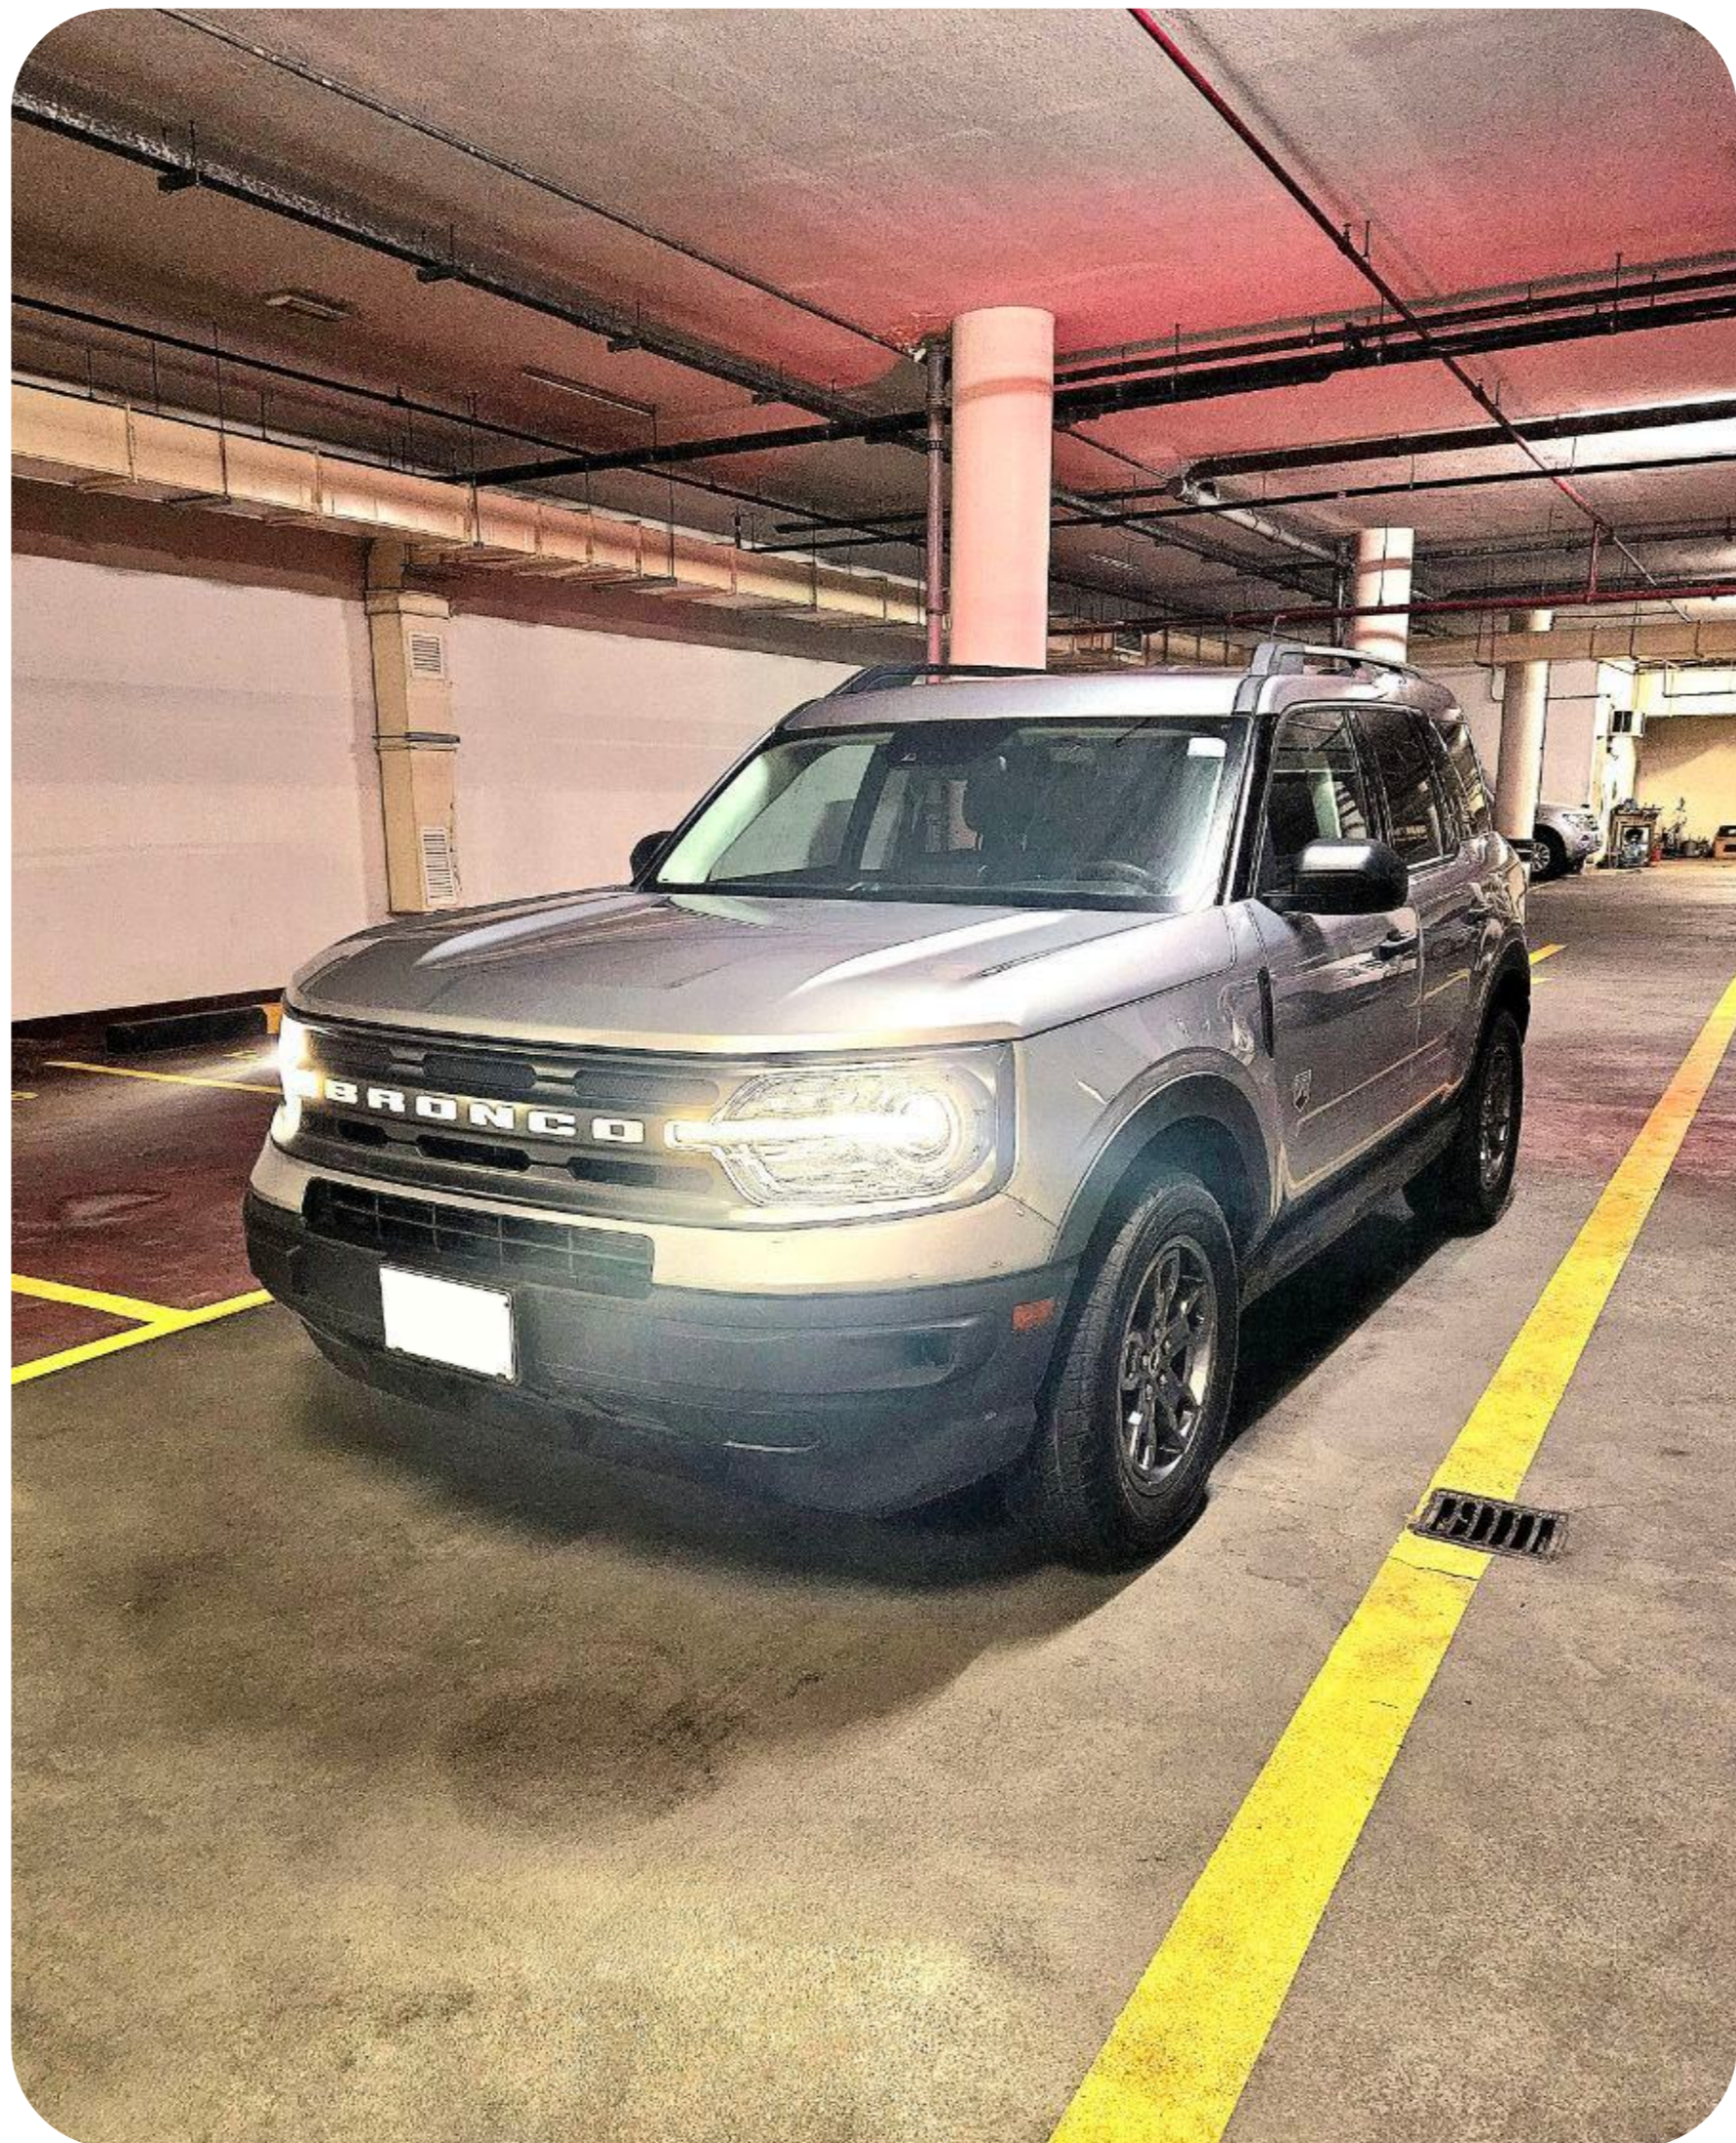

Refurbished vehicles look and function like new.

Jac J7

Mini Cooper

Ford Bronco Sport

Jeep Wrangler

Mitsubishi Attrage

We select the most popular car models. To maximise the % of cars rented out at any given time.

Cars are rented out on average 10.6 months out of 12 months a year.

Operational management and vehicle maintenance

The company manages all operational processes - from car repairs to accounting and collection of payments from rental customers.

This ensures management efficiency and cost minimisation, allowing the business to operate with maximum efficiency.
